

# REDESIGNING HOME-BASED LYMPHEDEMA TREATMENT TO IMPROVE COMPLIANCE

You empower your lymphedema patients to care for themselves at home. Yet patient compliance with self-care is low,<sup>1</sup> and they often find manual self-MLD too difficult.<sup>2</sup>

**There is a way to continue to care for your patients, even when you're not there.** Flexitouch Plus comfortably automates self-MLD with 93% compliance<sup>3</sup> for improved outcomes. Other proven benefits include:

- Significant reduction in edema versus self-MLD<sup>4</sup>
- Statistically significant improvement in Quality of Life<sup>3</sup>
- 79% reduction in cellulitis episodes.<sup>5</sup>

SEE HOW WE'RE BRINGING  
THE FUTURE OF HEALING HOME.
